

ABOUT US

Horizon Stone Pro is a construction support company based in Atlanta for contractors. We deliver general construction coordination, estimating, quantity takeoffs, CAD and construction design, document control, and project coordination remotely, backed by a licensed engineering and general contractor partner network and an active SAM.gov registration for federal work.

WHY HORIZON STONE PRO

01 Ready for Federal Work

Active in SAM.gov with an approved CAGE code, ready for federal prime and subcontract work.

02 Licensed Design & Construction Network

Partnered with engineering firms and general contractors licensed nationwide for stamped design and full construction delivery.

03 Renewable Energy Background

Direct experience supporting utility scale solar PV and battery energy storage system (BESS) construction.

04 Bilingual Team

English and Spanish speaking staff for national project coordination.

05 Fixed, Upfront Pricing

Costs and timelines confirmed before a single hour of work starts.

COMPANY OVERVIEW

We work as the construction support back office for contractors who do not have time to run their own, covering general construction coordination, estimating, CAD, and construction design. Every proposal comes with itemized costs and a confirmed timeline before work begins. Our partner network of licensed engineering firms and general contractors, active in all 50 states, adds stamped structural, civil, and electrical design plus full construction delivery when a project needs it, and our active SAM.gov registration keeps us ready for federal contracting.

CORE COMPETENCIES

- ◆ **Estimating & Takeoffs.** Itemized costing and quantity takeoffs pulled from blueprints in Bluebeam, priced and confirmed before work starts.

Bid support

Quantity takeoffs

Fixed pricing upfront

- ◆ **General Construction.** Full project coordination with our general contractor partner network, from preconstruction through closeout.

GC coordination

Preconstruction

Closeout

- ◆ **CAD & Construction Design.** Drafting, redlines, as built drawings, and architectural and structural design coordination in AutoCAD and Revit.

CAD drafting

Construction design

As built drawings

- ◆ **Engineering Support.** Stamped structural, civil, and electrical work through our licensed nationwide engineering partner network.

Stamped drawings

Nationwide coverage

- ◆ **Documentation & Compliance.** RFIs, submittals, and change orders tracked and kept audit ready.

Document control

Federal contracting

- ◆ **Project Coordination.** Schedule and milestone tracking in Primavera P6.

Project coordination

Scheduling

- ◆ **Solar & BESS Support.** Estimating, takeoffs, CAD, QA/QC, and inspections for utility scale solar PV and battery storage projects.

PSC Codes	R408, R425, R499, R699, R799, C219
Core Tools	AutoCAD, Revit, Bluebeam, Primavera P6

HOW WE WORK

01

Share Your Plans

Send blueprints, specs, or scope of work for review.

02

Fixed Price Proposal

Receive an itemized estimate and timeline, confirmed before work starts.

03

Delivery & Coordination

Get CAD drawings, takeoffs, and documentation tracked through to completion.
